Investigation,
They found blue ink on his hands,
And blood on the letter.

Change that station,
This could happen on my street,
Fantasy is better.

You've got purple in your eyes,
Yellow light emitting from your hands,

Enchanted castles,
Lovely maiden on the silk,
There's gotta be a catch,
No perfect match
Ever started with a cry,
To a tower in the sky.

You've got purple in your eyes,
Yellow light emitting from your hands,
You've been living behind screens,
Cordless phones since you were seventeen.

You've got purple in your eyes,
Yellow light emitting from your hands,
You've been laying on that green,
Little toe since you were seventeen,
Since you were seventeen.
