Move on to far in the direction that you are going.
You are the reason that i am feverish.

Creating distance your the scent.
In the kiss you are resistance.
You are insufficiently you are the reason i am breaking
down.
Yeah i am breaking down.
And i am breaking down.

You are the virus that invades.
You are taking over cells.
Stopping ever changing.
Moving in and through my body.
You are the reason i am feverish.

Move on to far. In the direction that your going.
You are the reason i am feverish
Move on to far. In the direction that you are going..
You are the reason i am feverish.
