Gretchen Phillips)

She-Ra, princess of power

You're my precious, precious princess of power

She-Ra, princess of power

I will save you from that burning tower

She-Ra, princess of power

You're my precious, precious princess of power

She-Ra, princess of power

Feel my omnipotence if just for an hour

She-Ra, princess of power

You're my precious, precious princess of power

She-Ra, princess of power

I turn to you when my relationships sour

She-Ra, princess of power

You're my precious, precious princess of power

She-Ra, princess of power

I choose you while the other ones cower

She-Ra, princess of power

You're my precious, precious princess of power

She-Ra, princess of power

We got down and boogied when that trend was in
flower
