It's two o'clock now,  
I'm tired and I should be off to bed.  
Monday flew by, where were you?  
In my heart and not my head  
Turn on the TV or the radio  
But there's nothing for me there  
Maybe if I saught you or I thought of you  
Then I wouldn't feel this way.  
Jesus you made a way for Moses  
Can you make a way for me now?  
Jesus you made a way for Moses  
Don't you remember when I was younger  
What you use to say  
What you love and cherish deeply  
Will turn and kill you someday  
Although I'm dying like a marter  
It's to my flesh and not to you  
But I've come to seek forgiveness  
A thing that only you can do  
Jesus you made a way for Moses  
Can you make one for me now?  
Jesus you made a way for Moses  
Can you make one for me now?  
Jesus you made a way for Moses....  
Made a way  
Made a way  
Made a way
