"A Little Distraction"

Visit "[A Little Distraction](#)" on MotoLyrics.com

It's a lonely, lonely, lonely night
It's a lonely, lonely, lonely night
I need a little distraction to come along
A little distraction, and you're the one

It's a lonely, lonely, lonely night
Such a lonely, lonely, lonely night
I need a little distraction to come along
A little distraction, and you're the one
To hold my hand and talk so soft
Show me all your photographs
Holidays in Italy
A postcard from the earthquaked village

I need a little distraction to come along
A little distraction, and you're the one
