You always want to be somewhere
Looks like we're already there
Take a look outside
I can't believe my eyes
Sunset became the sunrise

I can feel your heart beating
Anxious, you offer up
"We really must get leaving"
So conscious of the clock
I nose up to the window
Staring at the sky
Is there anything up there tonight?
Stars and satellites collide

You always want to be somewhere
Looks like we're already there
Take a look outside
Take a look outside
I can't believe my eyes
I can't believe my eyes
I can't believe my eyes
