Could this be Earth? Could this be light?
Does this mean everything, is going to be alright?
When I look out my window there's trees talking like
people
I've dreamt of storms, I've dreamt of sound
I've dreamt of gravity, keeping us around
I've slept in the darkness, it was lonely, and there was
silence
What is this love? I don't feel the same
Don't believe what this is, could be given a name
I woke, you were there, tracing planets on my forehead
But I forget 23 like I forget 17
And I forget my first love, like you forget a daydream
And what if all my wild friends, and the times I've had
with them
Will all fade to grey soon, on the TV station
