Were in your bed, were on the floor, i sell my soul for
just one more
I reached to touch, your broken hands, i pull you in as
close as i can

come on, come on, get up, get up
i won't let you down again,
come on, come on, get up, get up
i won't let you down again.

you make me pay, every time
is this love an endless rhyme
i feel you here, deep inside
you make me feel alive

come on, come on, get up, get up
i won't let you down again,
come on, come on, get up, get up
i won't let you down again.
love love love, i love, love love, love
again, again, again, again

come on, come on, get up, get up
i won't let you down again,
come on, come on, get up, get up
i won't let you down again.

come on, come on, get up, get up
i won't let you down again,
come on, come on, get up, get up
i won't let you down again.
