i sit .. in my head dreaming and check on line  
ohhhh, when i see a couple ..  
i can get so though with ..  
i am ..now to me and i feel love butterflies, butterflies,  
was ..in my heart speak when i think of love divine,

ohh dear diary, wish i knew a life sky is ..meeee  
ohhdear diary, every flower needs the honey bee.

i wake for the number four when i get off work at nine,  
uhh ohh  
turn the key open the door, .. the radio and cry ohh.

ohh dear diary , wish i knew a life sky is ..me  
ohhdear diary, every flower needs that honey bee.

was a stunt to my rain dry, .. on and on and on and ..  
was the only one i own to come it tear  
my dear, my dear, my dear, dear diary  
dear diary wish i knew a life sky is â€me  
ohh dear diary, every flower needs that honey bee,  
dear diary, dear diary.
