#### Verse 1

A good bit of me sleeps underneath in the bed of my  
soul  
lying next to belief if I toss where I lay I might turn her  
away  
So I try to still fall dreamin' someday I will  
wake up with you beside me with all of your love inside  
me  
so when I am gone it guides me on

#### Chorus

Everywhere I go I take you with me sweet darlin'  
Everywhere I go you know I take you with me

#### Verse 2

A good bit of me keeps to the sky On the back of a  
cloud Unaware of how high  
If I stay where I lay I might drift away soon  
From the pull of the sun I am full of the moon  
But baby your the one who grounds me When the  
sounds of this world surround me  
Your love it took a look and found me Lost and on my  
own

#### Bridge

Baby I always try looking at life through open eyes  
Baby my dreams came true with the treasure I found  
inside of you
