[Intro: Muph] {X2}

Let's go (let's go), and move with life

Let it go (let it go), somethin new tonight

[Verse 1: Muph]

Keys in the ignition, sittin, thinkin about how driven I
feel - tonight, grue-some bite

Twistin the pistons and envision what the distance and
the

fu-ture's like, move with life

Let's quit this job, say a final farewell to the big boss

Toss these bags in the boot and shoot through to

Inverloch

Maybe I've bitten off more than I can chew, left over
shoe

on the bitumen from the last victim who didn't seem to
have a clue

Few just missed the Subaru, out of tune with a dotted
line

While I was out of tune with a stop sign

Cop a fine here or there, that's life like life isn't fair

Visit wherever there's a spare couch and a deckchair

Slippery when wet, there is a death stare

So now I prepare to stop - bring it on

[Chorus: Pete Lawler]

Livin like there's no tomorrow, and then tomorrow
came

"Goin all out" {*Scratched by DJ Bonez*}

Road less travelled, man up in chains

"Goin all out" {*Scratched by DJ Bonez*}

Livin like there's no tomorrow, and then tomorrow
came

...And then tomorrow came

[Verse 2: Muph]

Huh, c'mon

I'ma break through the roadblocks, no stops

means no park and no gettin towed off

Toes on the pedal in my stone washed jeans

Soak up heavy metal on the radio stream

Bumps gettin brushed up against the windscreen
Wind down the window and listen to the wind scream
Lift me up, merge right, proceed with caution
Deep breath, now ease into the cornering
Exhaustion is behind me, travellin at ninety
Blindly let the road expose itself, guide me
Switch on the high beam, missing the signage
Just tryna find things so I'm applyin the brakes
Made a mistake, wrong way, turn back
Concerned that I'm still on my first lap
Book turns word on my blurred map
Churnin that engine, speed bumps - work that
suspension
Swervin emergency exits

[Chorus with variations: Pete Lawler]

Livin like there's no tomorrow, and then tomorrow
came

...

Livin like there's no tomorrow, and then tomorrow
came

"Goin all out" {*Scratched by DJ Bonez*}

Road less travelled, man up in chains

"Goin all out" {*Scratched by DJ Bonez*}

Livin like there's no tomorrow, and then tomorrow
came

"Goin all out" {*Scratched by DJ Bonez*}

I was livin like there's no tomorrow, and then tomorrow
came

...

I got the wake up call, laughin through the window
frame

"Goin all out" {*Scratched by DJ Bonez*}

I was livin like there's no tomorrow, but then tomorrow
came

"Goin all out" {*Scratched by DJ Bonez*}

I took the road less travelled, it's a man up in chains

...

I was livin like there's no tomorrow, but then tomorrow
came

...And then tomorrow came

...And then tomorrow came

Livin like there's no tomorrow, and then tomorrow
came
