Chorus:

Stand up, get down, won't you lay your body down

Kick back, hand jive, sure beats workin' for a livin'

Stand up, get down, won't you lay your body down

Kick back, slow ride

Hey, yeah yeah yeah yeah - alright

A painted lady, doing what she do

Drives me crazy, I wanna put the bite on you

Working for the man, working all you can, yeah yeah
yeah

Legs in leather, burning like a satin leaf

Real high steppin', my baby runs on gasoline

Heat me up or cool me down, you best spell that honey
'round

She got it alright, she's workin' all night

She got it skin tight, I wish she'd wrap that stuff around
me

chorus - give that girl a hand tonight

I'm addicted to the taste of bitter sweet

Terminal afflicted, I wanna live on Bourbon Street

Crazy for the girls, all the women in the world - yeah
yeah yeah yeah

I got it alright, I'd do it all night

I need it skin tight, I wish she'd wrap that stuff around
me

chorus - give that little girl a hand tonight

(Solo)

Eva likes to play with all her toys

Simone she knows just what we enjoy

Wendy's misbehaving for the boys in the company
team

I am begging baby, won't you do a thing for me, you
got to

chorus - give that girl a hand tonight

chorus - give that little girl a hand tonight

Give that little girl a hand tonight...

Say nothing (nothing) now!
