[Muph] I've got a lot of time for beats made by Suffa  
I've got a lot of time for treats with more meat than  
plugger I've got a lot of time for girls under the cover  
I've got a lot of time for my father, my sister, my  
mother And I can't forget Draino my brother I've got  
time for the girl that's my lover Me and my mates have  
time for each other Got a lot of time for the beach in  
the summer I'm just a-nother person, spends half his  
time versin Extremely determined to stay away from  
the vermin Only twenty-one so life has just begun And  
my aim to have continuous fun under the sun Learning  
with each day as it passes No time to waste on kissing  
arses No time for bastards and bitches, crafting good  
sickness Too much time for music, not enough for  
fitness [Suffa] I got a lot of time for tapes mixed by  
Reflux Got a lot of time for beats made my Beatnuts  
Got a lot of time for small butts and B cups C cups, D  
cups, damn even double Z cups Rhyme style's fat like  
the rack on that bitch Got a lot of time for emcees  
who's on that shit Got a lot of time for Pressure and  
Debris Like the Muph and Suff got time for beats made  
by me I got no time for kids who want to be American  
And got no time for beef with vegetarians Got time for  
rhymes that get me open like cesareans Got time for  
my boys who drink and act like Bavarians I got a lot of  
time for puffers in the winter And ciphers that I enter  
with Suffa in the centre Got no time for the piss and the  
lies that people tell me Got time for Slaughterhouse my  
favourite LP
