This is exactly how I dreamed it.
You and me
Perfectly together...

This is my heaven
sweet tender love and after.
(what will be)
A little kiss or two
not rushing this,
(How will it end)
With fantasies throughout the night.
Cant you stay just a little longer?

This kiss
This place,
This time
I'm gonna make it happen.
At first a kiss
Then the lips I miss,
We'll end the night knowing bliss

Saw you again in my dreams
something tells me...
This time its real.
I'm tossing and turning
Cant seem to remember..
(How you kiss me gently...
Knowing you're not here with me)
I dont know how love can be so cruel.

(what will it be)
listen,you got to understand-
(How will it end)
Dont make this difficult all I need is your love.
