"What's Wrong"

I'm oh so tired - I'm not alright:
It seems you just don't care
I'm not alone beside your throne
but you act so unfair
I'm felling kind of seasick
It's not your fault, you say, but in a way
you know you're wrong
So have a guess why I confess
I dedicate this song
to you, my spring of danger

Fuck off!
Get gone!
I'm sure you're not "the one"
Get lost!
We're through!
What's wrong with you?

Don't make a fuss - there ain't no "us",
Cos' you gave up before
You broke my will - I love you still,
though you were out for more
I suppose it will be over soonâ€¦
