Everyone The Luni Troupe

Everyone, you're down and out on Sunday,
Hoping for a perfect kind of someday,
That never comes, but maybe, maybe one day,
You'll find the time,
To cross that line,
To your own heart,
Where you wana be.
You are.
Right where you really are,
Right where you are.
You only find the love you can believe in
You get the love you will receive, and
I'll never send you away.
No-matter where you go,
Or believe you need to be.
Everyone, the love you can believe in.
Everyone, now you I do believe in.
Everyone, find the time to be in.
Everyone, the place you need to be in.
Cross the line, to your own heart,
Right where you really are.
Everyone, the love you can believe in.
Everyone, now you I do believe in.
Everyone, find the time to be in.
Everyone the place you need to be in.
Cross the line, to your own heart,
Right where you really are.
Right where you really are.
Right where you really are.
Right where you are.
Everyone.
