When it's getting good
Then you better be safe
'Cause a mind like yours
Is too good to waste
Keep your love alive
Keep your love alive

A body like yours
It would be a crime
If you push it to the edge
Of the Borderline
Keep your love alive
Keep your love alive

Gotta be careful
when you're takin' a chance
You gotta take care
It's a new romance
Keep your love alive - love alive

It really never was about a one night stand
It's a love for life so you better think twice
Keep your love alive - love alive

Love for life
You'll be alive tomorrow
If you're safe today
What better way to show
You care for me

Can't ignore the facts
When they're in your face
It's time you took responsibility
Keep your love alive
Keep your love alive

'Cause you know the love we have is
Is always gonna be
You know I want you and you want me
Keep your love alive - love alive

When the love is right
You gotta say
I want you here inside my life
Living for the light
That's coming from within
I want to take good care of you
I love you
