--- Desmond Child / Robbie Seidman  
Somewhere in America  
The tour bus roads through the dead of night  
The sleeping towns fade out if sight  
You know what I mean  
Here it comes and goes so fast  
Lookin' out this window  
I just see black  
Sometimes I wish that I was back  
And this was all a dream  
Chorus:  
I been up and down  
I been lost and found  
In America, in America  
I been turned around  
Till I don't know where I'm bound  
In America, in America  
And I miss you now  
Just a note from America  
Livin' on the road again  
I'm the only woman  
In this Rock'n'Roll band  
Fifty states of one night stands  
You know what I mean  
Railroad crossing midnight train  
Just the lonely sound  
of the clickety-clack  
Still I know I can't turn back  
American dream?  
Chorus  
Sometimes when it gets to me  
I dream that you are next to me  
I can feel you near (whisperin' my name)  
I can feel your touch (take away my pain)  
I can hear you say  
"I just want to love you again"  
Baby, baby
