(Frankie Miller / Jerry Lynn Williams)

God we must be crazy
The whole world's been falling apart
I've never seen such suffering
Or so many broken hearts

And how people can hurt each other
Lord I swear by stars above
Ain't got nothing to do with love
Ain't got nothing to do with love

You say you want my money
You wanna buy you a brand new car
You say you love me honey
I ain't seen no prof so far

'Cause the way you've been treating me darling
don't things I've never heard of
It ain't got nothing to do with love
It ain't got nothing to do with love

God we must be crazy
The whole world's falling apart
I ain't never seen so much misery
Or so many broken hearts

How people can kill each other
In the name of the lord above
It ain't got nothing to do with love
nothing to do with love
nothing to do with love...
