"Til The End Of Time"

Visit "[Til The End Of Time](#)" on MotoLyrics.com

I remember times like this
Memories you can't dismiss of paradise
Holding you inside my heart
Looking for a way to start out love again
Every night and every day
We can find a better way to live all our lives
We can be as one again
Finally find a way to say that we know the truth

'Til the end of time we love
Reaching for the higher ground
'Til the end of time we live
Giving all we have to give

Children of another time
We lay it all upon the line
To say I love you
Every night and every day
We can find a better way
To say I love you

'Til the end of time we live
Giving all we got to give
