We wait for the weekends to go out dancing
We work all week just to get out pay
Cause where there's music there could be romancing
We're gonna dance the whole night away
(Chorus)
Gotta take time to relax your mind
So talk and leave your worries behind
For timing isn't on our side
Haven't even got the time to play
(So talk and let yourself unwind)
Yeah, time
We need more time
Yeah, time
Gotta have a good time
Trying to forget the working day
Don't take it easy don't take it slow Oh No No No
Can't you feel the burning can't you feel the glow
Life lifts you higher and higher
Just get on down to where the music flows
