"Where Were You"

Visit "[Where Were You](#)" on MotoLyrics.com

Oh baby - I was always around
To pick you up when you were falling down
Now baby -when you were crying the blues
Wasn't the one that you came crying to
In all the years gone by
You've never seen me cry
I never let you see the other side of me

Where were you
When I needed somebody to lean on
Yeah where were you
When I needed a shoulder to cry on
I always held you close
When you were feeling weak
Guess I was walking down a one-way street
I was a fool to think
That you'd be there for me
Where were you.

Oh baby - when you needed a friend
I stuck beside you girl trough thick and thin
Now baby - when no-one cared at all
Wasn't I the one that you would always call
I gave away my heart
I knew just where I stood
Till I reached out for you
'Cause I thought I could

Now even more that what I'm going trough
The cut that hurts the most is your attitude
You're pretty good at talking what you need
You've got a lot to learn about loyalty
Belive me baby...There were times
You drove me crazy...I was so blind
Where were you

I never let you down when you were full of fear
Saved you from drowning in a sea of tears
Why baby why then weren't you ever there for me...
