Drivin' all night in my Toyota Lenn Cruizer, I saw some
tail for sail, and
figured I could use her. Pulled up to the corner she was
fine but kind of
gurgley, she hopped right it and gave a grin and said,
"Hey your eddie
Murphy". I thought she was a Smoker, or had a throat
infection, but when she
lifted up her dress she spotted an erection, a hairy
chest with big fake
breasts, you really should have seen her, the bitch was
fine, but she was a
guy, the girlfriend had a wiener. (OHHH NOO) (And it
was a big one too) (Uh
huh) (Oh yeah). She said, " Dont worry Eddie, your
money is well spent, just
drive a couple miles while I help you pitch a tent." I
said, "Im funny Ha Ha,
but I aint funny queer." That's when I saw a flashing
light, in my review
mirror. Thinkin fast I told the cop, "Im just here for her
salvation, to
lecture her about the evils, of solicitation, so he let me
go, but he bought
the hoe, with a misameiner, the bitch was fine, but she
was a guy, the
girlfriend had a weiner. (right there in front of me) (Im
talking ball park
frank) (and it was already cooked)
