Take, take a picture  
Take a little time  
Take my hand and whatever fits you  
Take my piece of mind

No need to dig through the dumpster  
For all the stuff we thought that you'd left behind

(Take) Take my car, drive it to the outside world  
(Take) Take it far, farther now, from me  
(Take) Take it all, happy crappy fat desserts  
(Take) Take my heart, take, take, take me apart

Take, take a minute  
Take a look around  
Take my hand and whatever's in it  
Take, if it's not nailed down

No need to dig through the dumpster  
For all the stuff we thought that you'd left behind

(Take) Take my car, drive it to the outside world  
(Take) Take it far, farther now, from me  
(Take) Take it all, you can have my fun-hat shirt  
(Take) Take my heart, take, take, take me apart  
You can take me anywhere

No need to dig through the dumpster  
For all the stuff we thought that you'd left behind

(Take) Take my car, drive it to the outside world  
(Take) Take it far, farther now, from me  
(Take) Take it all, happy crappy fat desserts  
(Take) Take my heart, take, take, take me apart

Take take, take me apart  
Take, take me apart  
Take me here, take me there  
You can take me home, you can take me anywhere
