Here on Earth
We have learned to lie
Here on Earth
We have learned to cry
Hide our dissapointments
watch our lives go by
Here on earth
love is not the flesh
Here on earth
we learn to live with less
Feel out hearts beating
and appreciate the mess
Way up there in heaven god
is it still the same?
I hear ya have your troubles too
Is it like Im layin down
the homeless and insane
I guess we have our problems too
Here on Earth
Here on earth
life is not the same (without you)
here on earth
no one is to blame
cause we all get broken
and we all feel the shame
Repeat chorus
