[voice announcer]

You asked for it, you got it
And this is ("FELT") Volume 2
("Murs, Slug is a group, but Felt is the fabric")

[Slug]

Ay Murs, why you always look mad at at life?

[Murs]

First, fuck you for askin, 'cause you know that ain't right
I just refused to be plastic for these rappers I don't like

[Slug]

Well how do you manage to stay so polite?

[Murs]

Anger management technique, developed out of spite
Rather kill you with kindness than kill you in a fight

[Slug]

So why you wanna punch these other rappers in their
face?

[Murs]

'Cause they fake as fuck, and a waste of space
Besides, fist not guns, that's a change of pace

[Slug]

So who are you to judge who's true these days?

[Murs]

I been around the block, got a few dudes paid
One of the few rappers left that'll do what I say

[Slug]

So is it Def Jux or the Living Legends that you're reppin?

[Murs]

Man, I'm all about good music, people and progression
I got friends in differnet sectionsm but the West is
where I'm restin

[Slug]

Do you really think GRACE is the reason you ain't sellin'?

[Murs]

Whatchu tryna piss me off and put a end to this section?

Man, you've heard this is for - c'mon, next question

[Slug]

Aight, what was it like working with Humpty Hump?

[Murs]

One helluva artist, but a fuckin drunk

Though we did get the video crackin, I won't front

[Slug]

You had a bunch of porn stars there, anything jumped?

[Murs]

Yeah, up into my lap for some head just once

And I coulda got some pussy, but I was too fucked-up

[Slug]

Hahaha, after the first "Felt", did you meet Christina?

[Murs]

No, she never said thanks, my black ass never seen her

THat's why I moved on to my Nubian queen, heh

[Slug]

So what's the definition of the "3:16", huh?

[Murs]

It's my birthday, fool - 3-16

Plus the formula for the every rap song that you sing

[Murs]

Ay Slug, why you only make songs about women?

[Slug]

Priorities, man - nah, I'm kiddin

I'm tryna build heaven while the world's still spinnin

[Murs]

How big did you guess it would get in the beginning?

[Slug]

This is STILL the beginning, still unraveling ribbon

The mission is to travel for as FAR as the vision

[Murs]

Well how long so you think this success will last?

[Slug]

Man, for all I know, that shit already passed!
It's impossible to answer that question asked

[Murs]

Then why Rhymesayers make a deal with EpiTaph?

[Slug]

We DIDN'T, you dumbass! Go read the math
Me and Ant did ONE record, for beats and laughs

[Murs]

Anyways Sean, whatever happened to Spawn?

[Slug]

Well things felt wrong, so we both had to move on
No love gone, everyday holds a new dawn

[Murs]

Business and friendship - where's the line drawn?

[Slug]

Families and friends may get PAST the front lawn
Business is done by the end of the last song

[Murs]

Is it the caffeine, the nicotine, the milligrams, the tar?

[Slug]

NO - it's Selena, it's Christina, it's Serena in my car
It's a thick line between being a genius and a star

[Murs]

Are you rapping, acting, or kittin the guitar?

[Slug]

Man, fuck that shit! I'm just sittin at the bar
Writin these hits about self-inflected scars

[Murs]

Are you in love with this game, completely and truly?

[Slug]

From the music to the voice to the stage to the
groupies
I'm the same as was back when NOBODY knew me

[Murs]
Alright, who, is, Lucy?

[Slug]
HUH - She's the extra that gets to play the devil in my
movie
She's around UP-town sippin a beer smoothie

{both burst out laughing}

YEAAAAH, HAHHHHH-HAHAHA
(We did it again!) WE DID IT AGAIN!
(TAKE THAT! Hahaha, another album!
Hahaha, THE JOKE'S ON YOU, JACK!!

{intro to "Early Mornin' Tony" plays}

["Volume 2" repeats throught intensifying and
decreasing occasionally]
