You have come
Wipe away the tears and all I've seen
I'm in His place and I know the place that I'm in
Fear's aside there's light inside of me
And I'm seeing things more like how they could be

Thought I would make it on my own
Yeah, I'll be fine here on my own

Do you believe that I can change?
Do you believe I'll up and change my ways?
Do you believe then I'll have faith?
That He will clean the slate and change my ways
... right through
You have won
And wiped away the fears and all I've been
I'm feeling grace, the amazing grace that I need
Years go by with peers beside of me
And I'm feelin' safe and sound, but silently

Thought I would make it on my own
Yeah, I'll be fine here on my own

Do you believe that I can change?
Do you believe I'll up and change my ways?
Do you believe then I'll have faith?
That He will clean the slate and change my ways
... right through
