"Hello Halo"

Visit "[Hello Halo](#)" on MotoLyrics.com

You talking to me
You say it all in 'love'
but I hear the preaching
Won't you just say it as is seen and breathe the relief
and freedom

Awakened to days
Upon the crusade
Some others call it reason
Commonly evade the face, the way, to fall to our knees
and wait

Called you to my side in times of need
(In times of need)
If only I knew this all along

Fatal case in need
Fatal case in need

Hello halo
We drift on and on and fill our lives with the grandest
schemings and designs (*2)

Fill it in, pick the gap
Can we stretch ourselves beyond ourselves*
Drive over more line, compete, compete, compete
Are we running or crawling

You talking to me
You say it all in 'love'
But I hear the preaching
Won't you just say it as is seen
And breathe the relief and freedom

Hello halo
We drift on and on and fill our lives with the grandest
schemings and designs (*2)
