listen here babe,
let me tell you how it's gonna be
go ahead and try it baby
you won't last one day without me cause

you got it bad for me,
still got a heart for me
I'm just a habit baby you can't break

you go it bad for me,
still got a heart for me
that's just how it's gonna be
baby you just wait and see

you ain't a thing without me,
sure ain't a thing without me
girl you've been struttin' around
you've been all over town but what does that prove
I know all about you

you ain't a thing without me,
sure ain't a thing without me

so listen up baby,
I'm not quite finished with you
it would only drive you crazy
no other lover could do what I do, yeah

you got it bad for me, still got a heart for me
oh you keep searching 'till you realize
you got it bad for me, still got a heart for me
that's just how it's gonna be
baby you just wait and see
you ain't a thing without me,
sure ain't a thing without me
girl you've been struttin' around
you've been all over town but what does that prove
I know all about you

you ain't a thing without me,
sure ain't a thing without me

you go it bad for me,
still got a heart for me
I'm just a habit baby you can't break
you go it bad for me,
still got a heart for me
don't it get hard to breathe,
when you think how good it used to be

you ain't a thing without me,
sure ain't a thing without me
girl you've been struttin' around
you've got all over town but what does that prove

I know all about you
you ain't a thing without me,
sure ain't a thing without me
you ain't a thing without me,

No, no ain't a thing
You ain't a thing without me
