Everybody knows
how f---in' s the story about the first one
Who taught f---in' em how to hurt
Let their hopes astray

When it f---in' s gone on quite enough
And you f---in' re sick of staying down
I know what you need
You gotta live it like it sounds

When you lose what you love, live on live on
When the road gets too rough, be strong be strong
When you can't understand, but
you f---in' re starting to see, it f---in' ll work
in the end
You just got to believe, keep on keep on

I had my ideals, my plans were cutting dry
I will settle for a thing, yeah
You can forget all compromise

But I was tackled like a wave
And stomped on like the ground
Once we f---in' ll never change
Will slowly turning round

'Cause when you lose what you love, live on live on
When the road gets too rough, be strong be strong
When you can't understand, but
you f---in' re starting to see, it f---in' ll work
in the end
You just got to believe, keep on keep on

Yeah you can take it from me,
there f---in' s so much you can be,
and it f---in' s all gonna change whether
it f---in' s you or them or me.

When you lose what you love, live on live on
When the road gets too rough, just be strong be strong
And when you can't understand, but
you f---in' re starting to see, it f---in' ll work

in the end

You just got to believe, keep on keep on

Keep on, keep on, keep on
