"Same Old Song"

Visit "[Same Old Song](#)" on MotoLyrics.com

I've been hopeless I'm rolling with no wind of change
I've been sick and fast I gone to past I'm wasting days
away
But I switched off the story and turned a new page
'Cause this ,darling doesn't work for me
It's time to make a change

[Chorus]

I can't play the same old song
Give me a record I can sing along too
Been down for far too long
Pushed the neddle to the side
Put a record on us right

I could never stop moving just tryin' to be free
But the principles I'm running from all inside of me
My reflection was blurry and my soul has no trace
I got tired of seeing the worst of me
Was time to make a change

[Chorus]

I can't play the same old song
Give me a record I can sing along too
Been down for far too long
Pushed the neddle to the side
Put a record on us right

I lost my way
Lost my way

[Chorus x2]

I can't play the same old song
Give me a record I can sing along too
Been down for far too long
Pushed the neddle to the side
Put a record on this right

Pushed the neddle to the side
Put a record on us right
