It's cold outside  
And I'm just trying to stay warm  
I walk right in  
And check my coat at the door

I look over my shoulder  
Is this what it's like getting older  
I feel the years of all these watching eyes

So call me over  
Take me somewhere  
We can lose ourselves into the night  
We won't stop running  
'Till the stars and don't look back  
Until the world's out of sight  
We'll be one day closer  
One day closer  
We've got time on our side  
And we won't stop running  
Can't stop running  
We'll be one day closer tonight

I carved your name into this bathroom wall  
The waitress always asks where you have gone  
She's telling me I'm crazy  
That I'll always be waiting for you  
But I know one day you'll be coming back

To call me over  
Take me somewhere  
We can lose ourselves into the night  
We won't stop running  
'Till the stars and don't look back  
Until the world's out of sight  
We'll be one day closer  
One day closer  
We've got time on our side  
And we won't stop running  
Can't stop running  
We'll be one day closer tonight

We'll be one day closer  
One day closer  
We've got time on our side  
It won't be easy  
So baby trust me  
We'll be one day closer tonight

We'll be one day closer  
One day closer  
We've got time on our side  
And we won't stop running  
Can't stop running  
We'll be one day closer tonight

We're one day closer tonight  
We're one day closer tonight  
And we won't stop running  
Can't stop running  
We've got time on our side  
So baby trust me  
We'll be one day closer tonight
