Oh my goodness, what am I gonna do?
'Cause I fooled around and I fell in love with you
Hey, sweet baby, now you got me by my heartstrings
I'm wrapped around your finger and saying some silly
things

I get a thrill when you walk in the door
Nobody's done that to me before
Oh my goodness, what am I gonna do?

It's almost like there's magic in the air
'Cause I felt it the first time that I saw you standing
there

Hey, I fooled around and I fell in love with you
Oh my goodness, what am I gonna do?

Now here you stand my walkin', talkin' dream
Takin' my heart places it ain't ever seen
Temptin' me with every little move you make
I'm walkin' on the wild side feelin' so swept away

One little kiss was all it took
That was just enough to get me hooked
Oh my goodness, what am I gonna do?

'Cause it's almost like there's magic in the air
'Cause I felt it the first time that I saw you standing
there
Yeah, right there, yeah

Hey, I fooled around and I fell in love with you
Oh my goodness, what am I gonna do?
Oh my goodness, what am I gonna do?
Oh my goodness, what am I gonna do?
