So long ago the lines were drawn  
People on the corner 'cause the jobs all gone  
Money making deadly dreams  
Two dollar hustles, million dollar schemes  
Driftin' through the usual routine  
Caught in the red tape searchin' for the green  
Money making no respect  
Tired of living check to check

Fear is taking over so watch over your shoulder  
As the hour draws closer

If we can make it there, there's gotta be a way  
somehow  
If we can make it there, then we should do it now  
Through our darkest days and endless nights  
I can't find my way, but I can see, I can see the light

Been looking for a better way  
Seeking out the want ads nearly every day  
No mission, man, don't need advice  
So sick of eating on these beans and rice  
Still driftin' through the usual routine  
Caught in the red tape searchin' for the green  
Money making no respect  
Tired of living check to check

Fear is taking over so watch over your shoulder  
As the hour draws closer

If we can make it there, there's gotta be a way  
somehow  
If we can make it there, then we should do it now  
Through our darkest days and endless nights  
I can't find my way, but I can see, I can see the light

I know I've been here before  
Waiting on the wrong side of the door  
Feels like day after day  
Questions linger in my mind  
Got me feeling left behind

Feel I'm driftin' away

If we can make it there, there's gotta be a way  
somehow

If we can make it there, then we should do it now  
If we can make it there through our darkest days and  
endless nights

I can't find my way, but I can see, I can see the light  
(repeat)
