Think you got time to waste living your life in haste
Think it over, think it over
Love just ain't gonna wait, it ain't that easy to replace
Think it over, think it over

There's no time to hesitate, don't go running away
All you've gotta do is appreciate

Think it over, you have it all today
Think it over, think it over babe
Think it over, well you know it's not too late
Think it over, think it over babe

It's so hard to carry on, when you feel the love is gone
When it's over, when it's over
You had it all wrong, been a little too headstrong
Should've told her, should've told her

There's no time to hesitate, don't go running away
All you've gotta do is appreciate

Think it over, you have it all today
Think it over, think it over babe
Think it over, well you know it's not too late
Think it over, think it over babe

You've been holding on so tight, don't you realize
That everything must pass on by
You waited for too long till the moment was gone
And now you're all alone

There's no time to hesitate, don't go running away
All you've gotta do is appreciate

Think it over, you have it all today
Think it over, think it over babe
