[M1]

'Til we get there

'Til we get there

'Til we get there

[K'naan]

Yowego, from the poorest and blackest of people

To survive in the streets of Modesho

The most dangerous armed and lethal, yet peaceful

We no evil, I come from the slums that's run down

Spit native intelligent tongue sound

Would rather get gunned down than dumbled down

So come down ...

[M1]

Much success to you comrade

To who I wrong, if it's never been said before, my bad

I took a page from the book of Martin Luther

And decided that it's better to hug ya than to shoot ya

I'm sorry homie if it's not what ya use ta

But the way that we livin' these black lives is beautiful

All the things we've been through and the tree we done

bloomed

We probably family but we never knew

[Chorus: Stori James]

'Til we get there, I'm on your side

'Til we get there, I'm on your side

And it can take some time, 'til we win this fight

'Til we get there, I'm on your side, yeah

[M1]

That's what's called solidarity

When we struggle it's therapy, after chaos we get  
clarity

My enemy's enemy is my man remember?

I ain't tryin' to be endin' up in this man's dilemma

We only here for a minute, it's what you make it so live  
it

See, I'm a ryder and I'm gon' be remembered

For those of you not born, to those of you not here

I wish you the best and that's real

[K'naan]

This ain't ya average, when they portray us they say  
"all savage"

Coz we have it, blast it, won't stash it  
Coz we fight to the death and manage  
To makes songs of struggle and to habits  
And dammit, if I don't get even  
It's chant down Babylon season  
Die for Nee Orleans to Cleveland  
'Til we even, we not believin'

[Chorus: Stori James]

'Til we get there, I'm on your side, yeah  
'Til we get there, I'm on your side  
And it can take some time, 'til we win this fight  
'Til we get there, I'm on your side, yeah

[M1]

I love when we makin' plays  
I love all our brilliant ways  
I love when we get paid and never move away from the  
hood  
We keep gettin' while the gettin' is good  
You right at home in our neck of the woods  
Coz we people, momma said treat others like you want  
'em to treat you  
We just wanna live and be peaceful  
Long as it makes sense, I'm a have patience  
Especially with my brothas I go back in the day with  
We speak the same language, suffer the same  
dangers  
Coz our children are victims of lead paint chips  
Out in L.A. they put the black against the Mexicans  
Old rivaling 's is throwin' up they sets again  
They put the short against the tall and the old vers the  
new  
Pretty soon it's gon' be me against you  
All the things we been through and the tree that we  
bloomed  
I wish you much success and stay true

[Chorus: Stori James]

'Til we get there, I'm on your side  
'Til we get there, I'm on your side, yeah  
And it can take some time, 'til we win this fight  
'Til we get there, I'm on your side

'Til we get there, I'm on your side (I'm on your side)  
'Til we get there, I'm on your side (I am on your side)

And it can take some time, 'til we win this fight  
'Til we get there, I'm on your side, yeah

'Til we get there, I'm on your side  
'Til we get there, I'm on your side  
And it can take some time (it can take some time),  
'til we win this fight (till we win this fight)  
'Til we get there, I'm on your side, yeah

'Til we get there, I'm on your side, yeah  
'Til we get there, I'm on your side  
And it can take some time, 'til we win this fight  
'Til we get there, I'm on your side (I am on your side)
