Feat Brown Bag AllStars

It started as a way to say that's what he does, that's
what defines him
And really it's silly it's deep in that rapping and ...
It's a climbing to the mind defining, where it heads that
It's no use from you crack...these producers the next
track
It said that you presented the world but you would tend
to get
That's probably why you 2 get jack shit, now I admit
You never had the chance, when you stepped into
place
But who am I to deny your dance with your faith

Always good review then I hate her cause I know that
someone's got her
Believe me that their entourage will never want the
drama
Trying to reach the goal like ...
No I sorry I confused you, automatic for the people
Feel the static in the speaker, pull the fabric they all see
through
Talk is cheaper, here my 2 cents, who's them,
Talking like a new sense, street walking wobbling,
fighting against the gravity
Keep talking on it, I'm under now it has to be

See the double, baby brothers, baby utterly existed
In the circle that we had, getting plugged into the
system
Look now and think high, but soon I will drift by
If you think it's set was dope you must have...but it's
fine
To me you're on a different side, I last for eternity
You won't exist in time and this is why
Your great success is your blog buzz
While I'll be in the movies that you purchasing from
blockbust

See we get ... and never could cover up

The fact that somebody always suffering under bus
Y'all might be exhausted, with how I keep
... listen to my ... just pretend the words are gibberish
Step under my toes and call me a considerate
I got love for my half somes, half nots and half nones
Y'all think we finished? Shit, we barely half done

Show them what it's all about
Throw the beats, dope beats, rhymes and cuts
Show them what it's all about
Throw the beats, dope beats, rhymes and cuts
Show them what it's all about
Throw the beats, dope beats, rhymes and cuts

So we leave no explanation, everybody is a protegee
Dope to play today, but tomorrow gets thrown away
Our leaks are better than the cuts off your album
Upset cause you know it's true discussing your
outcome
And grave in the brand of the name leave the game
scarred
Classic's the plan, just like a ...trademark...
Stay up...

And away we go ... exit stage left, ...
Play you like a ... telling foes there's more of us
... Eyes...fear, we fear none
Scrape your chainstraight up like a bear run
Sold on... give them what they deserve...
Until our fingers injure they nerves

We ... survived, 2009, the year that all the legends died
Forever I've been ... born as a Gemini
And ... why the fuck making music's not making bucks
Why the 2 are separated
I hate it that I gotta wake up at 8 to record this track
Before I go to my other job to sell you something that's
sorta whack
Like yeah the beat is good but you can't even really rap
Wishing that I had a disc to push...crack

We're on the same train but acting like we're strangers
at odds
At travel beneath the shadows of some angry gods
So these little lines...they really got a chance in
hell to break the waves...
Well I'm sorry for the disrupt, ...of the level of your
interest
...I remember different days on when we was so
disengaged

Show them what it's all about
Throw the beats, dope beats, rhymes and cuts
Show them what it's all about
Throw the beats, dope beats, rhymes and cuts
Show them what it's all about
Throw the beats, dope beats, rhymes and cuts
