I got a pickaxe in the trunk of my car  
I'll put it on the grinder to get it real sharp  
There's an ugly green monster in my head  
Won't leave me alone  
Until you're dead

I called your house but you couldn't be reached  
So I took the D train to Brighton Beach  
You're doing the thing with a brand new man  
Checking out the stars  
Screwing on the sand

Kill you  
Kill you  
I'll fucking kill you

So I took some steriods and adrenaline  
Finlandia vodka and hallucinagens  
Mixed it with blood and orange juice  
Liquid protein and ice cubes

Staring down at your sweaty embraces  
Put my tool right through your faces  
Well buddyboy I hope you enjoyed her  
'Cause I'm an equal opportunity destroyer

Kill you  
Kill you  
I'll fucking kill you

I'll kill you tonight  
I'll kill you tonight  
I said I'll kill you tonight  
I'll fucking kill you
