I'm, I'm here to stay. I'm, I'm here to stay
I'm, I'm here to stay. I'm, I'm here to stay

You've been saying this ain't workin out
You need to think about
If we should stay together, plus the stormy weather
You think that I'm cheating, creeping, sneaking behind
your back
But that ain't true because I love you
You should know that I adore you
And I ain't going nowhere
Boy I'm staying right here

I know you think that I'm not gonna stay
But baby you will see that it's okay
You got me, it will be alright
Cuz I'm a stay by your side
Don't worry if we have our crazy days
And I'll be staying mad for a couple days
But no one will ever take your place
See baby I am here to stay

So tell me baby can you handle this
Do you believe in this
Cuz all I wanna do is give it all to you
And nobody else will ever do, the things you do
So you can get back on it, done got your heart but
Truth be told they can't pull me apart from you
So what do I gotta say or do

I know you think that I'm not gonna stay
But baby you will see that it's okay
You got me, it will be alright
Cuz I'm a stay by your side
Don't worry if we have our crazy days
And I'll be staying mad for a couple days
But no one will ever take your place
See baby I am here to stay

Now that you understand
Let's make it last
I'm your woman

Let's forget the past and start over a new beginning
Our happy ending
Cuz you are my love [my love]

Now that you understand
Let's make it last.
I'm your woman
Let's forget the past and start over a new beginning
Our happy ending
Cuz you are my love [my love]

I know you think that I'm not gonna stay
But baby you will see that it's okay
You got me, it will be alright
Cuz I'm a stay by your side
Don't worry if we have our crazy days
And I'll be staying mad for a couple days
But no one will ever take your place
See baby I am here to stay

I know you think that I'm not gonna stay
But baby you will see that it's okay
You got me, it will be alright
Cuz I'm a stay by your side
Don't worry if we have our crazy days
And I'll be staying mad for a couple days
But no one will ever take your place
See baby I am here to stay

No No No No
I'm here to stay, I'm here to stay

I'm, I'm here to stay. I'm, I'm here to stay
