Say what you want to as long as you know you are right
Don't waste yourself, you're not like them
You're better than this
They may cloud your reasons
And they will try to break you
But don't forget where you came from
Everything will be fine
I'm not telling you what to be
You know what you want
Remember what you've learned
It will be okay
You don't need them to prove them you're something
that you're not
It's best if you let it go
Then you'll realize I'm right
