This is tearing me apart  
I don't know what I feel now  
My head is caving in  
My body's getting tired  
The sound of selfishness  
Is killing me right now  
When will this end? When will this stop?  
Run away but it's no use  
This is wrong oh, so wrong  
I'll drown myself and never wake up  
I'll die alone,  
I want to reach out  
But it's me that's keeping me  
From helping myself  
I know its lame and that's a shame  
Please don't do this  
I can't take it anymore  
Just as I was forgetting you
