I was always going to fall asleep early tonight (x2)

I was all white-washed and woven and there by your
side

I was always going to fall asleep early tonight

Hell no body falls not when my hand is laid on my heart
At least now when I'm sleeping, I still feel like I'm doing
my part

I was all kiss curls and cows licks, got angel delight
(x2)

Then I grew out of the kis curls and cows lick, got a
hairy back

Then I grew out of the kiss curls and cows lick, growing
twenty five

I was always going to fall asleep early tonight (x2)

(Hell no body falls not when my hand is laid on my
heart

At least now when I'm sleeping, I still feel like I'm doing
my part) (x2)

(Iwas always gonna fall asleep (x2)

I was always going to fall asleep early tonight) (x3)
