First time I saw you standing on the corner
Thought maybe I'd died and went to Heaven
But I got to thinking and baby, I knew better
'Cause I know that angels don't, angels don't wear
high-healed shoes

I don't need an angel
Let 'em fly around the blue
I'd be more than grateful
With a woman, that was just like you

Sweet baby don't you change baby don't you change
Baby don't you, baby don't you change a thing
No baby don't you change a thing
You don't need no angel wings
You look so good you make a grown man scream oh
baby no baby don't
No baby don't baby don't,
Don't you change a thing

First time I saw your face on a photograph
I thought maybe I was looking at the cover of a
magazine
Oh oh oh
But I got talkin' to you and baby, I knew better
'Cause I know most models don't, models don't know
how to hold a conversation

I don't need a model, you can let 'em
Flirt around the page
I'd be more than grateful
With a woman that had your face

Sweet baby don't you change baby don't you change
Baby don't you, baby don't you change a thing
No baby don't you change a thing
You don't need to be on a magazine
You look so good make a grown man scream oh baby
no baby don't
No baby don't baby don't
Don't you change a thing

No, no

(Instrumental)

Baby don't you change, baby don't you change
Baby don't you, baby don't you change a thing
No baby don't you change a thing
I've got me a mind for a diamond ring
You look so good make a grown man scream baby no
baby don't
No baby don't baby don't,
No,
Baby don't baby don't,
No,
Baby, don't baby don't, no, no,
Baby, don't you change a thing
You don't need no angel wings
Don't you change a thing (prrrrrapa)
Baby don't you change a thing
You look so good you make a grown man scream
Don't you change,
Sweet baby don't you change
Baby don't you change
Baby don't you change a thing
