I hear your voice from down below  
The sweetest sound I've ever known  
You call me closer to the edge  
To take a step and just let it go

I know I want you  
That's why I'm afraid

Can you feel me falling for you  
Feel me falling  
Cause I fear I'm falling for you  
I fear I'm falling

I wont pretend that you're naive  
It's hard to hide what's plain to see  
But I will try to stand my ground  
And catch the breath you take from me

I know I want you  
That's why I'm afraid

Can you feel me falling for you  
Feel me falling  
Cause I fear I'm falling for you  
I fear I'm falling... falling... falling... falling

Can you feel me falling for you  
Feel me falling  
And I wanna feel you falling for me  
Feel you falling...

Don't be the one that got away  
You can't just go, my heart will break  
I have to show you how I really feel  
You are the reason I believe  
That love is a possibility  
You are the dream I never thought was real

Can you feel my falling for you  
Feel me falling  
And I wanna feel you falling for me

Feel you falling... falling... falling... falling...
