"Fly"

Sittin' in the airport waiting for the plane to come
One man walks, one man runs
Seems to me every burden every care
Is about to slip into the air

Chorus:

Some are eager to go
Some have baggage in tow
Some just cry
I'm not ready to fly fly fly
Everybody says goodbye fly fly fly
We all take flight sometime

Sittin' in the airport waiting for the plane to come
A man regrets everything he's done
So many choices that he made along the way
Leave him alone to face this day

(Chorus)

When my plane comes and I hit the sky
And I start to fly darling don't you cry
When my plan comes I'll be more alive
With heaven in my eyes
We will meet again
Fly fly fly everybody says goodbye
Fly fly fly we all take flight sometime, sometime
