(Yeah)

It was one of those moments  
When everything changes  
She was climbing out of a Chevrolet  
On the passenger's side  
I must have been staring  
'Cuz when I caught her eye  
It seemed like  
I had been looking at her  
For all of my life.

So I said  
Why don't you come and go with me?  
Somehow I know I've waited my whole life to see  
You standing there  
With the wind in your hair  
I'm as sure as a boy could be  
You are the girl that's been running around in my  
dreams  
You are the girl that's been running around in my  
dreams

(Hey)

Once in a lifetime does not happen again  
So I took a chance in a Gambler's game  
Put my heart on the line  
Maybe I'm crazy but I'll never regret  
What I said to a girl I knew before we even met

And I said  
Why don't you come and go with me?  
Somehow I know I've waited my whole life to see  
You standing there  
With the wind in your hair  
I'm as sure as a boy could be  
You are the girl that's been running around in my  
dreams  
You are the girl that's been running around in my

Hey I finally found you  
I been dreaming about you  
(Yeah)  
You are the girl that's been running around in my  
Hey I finally found you  
I been dreaming about you  
You are the girl that's been running around in my

Why don't you come and go with me?  
Somehow I know I've waited my life to see  
You standing there  
With the wind in your hair  
I'm as sure as a boy could

Why don't you come and go with me?  
Somehow I know this changes everything  
You're standing here  
It's crystal clear  
I'm as sure as a boy could be  
You are the girl that's been running around in my  
dreams  
You are the girl that's been running around in

Hey I finally found you  
I been dreaming about you  
You are the girl that's been running around in my  
Hey I finally found you  
I been dreaming about you  
You are the girl that's been running around in my  
dreams  
You been running around in my dreams  
You been running around in my dreams  
You are the girl that has been running around in my  
dreams
