I always knew you were out there somewhere
I could feel you in my soul
Your song inside of me everywhere I go
In the rain I could hear your whisper
In the storm I could hear your scream

I will be waiting
Dreaming until you are here
Until you are here
I am undone
Until you are here

Every star in the sky is shining
All beauty bears your name
Your voice is calling me all along the way
I am filled with the deepest hunger
I am filled with a burning thirst

I will be waiting
Yearning until you are here
Until you are here
I am undone
Until you are here
Here
Here
Here
Here
Here
Here
Here
Here
Here

Here

I am undone
I am undone

I am undone
I am undone

I am undone

Until you are here

Until you are here
Until you are here
I am undone

And I will be here
Yes, I will wait here
Until you come

Until you are here
Here
Here

I always knew you were out there somewhere (here)
I could feel you in my soul (here)
I will be waiting (until you are here)
Until you are here
