Beyond what we can see  
Throughout eternity  
The answers waiting to reveal  
The spark resides in you  
The light divine and true  
Filling your soul it is so real

(Chorus)  
Forever we will fly  
Unto the ages and beyond  
From world to world the flight goes on  
Reveal this mystery  
Secrets unfold before us all  
Holding the key we hear the call  
Forever more

Within our hearts we know  
The truth we can't let go  
The spirit lives and will prevail  
The stars will burn away  
But life is here to stay  
The light within will never fail

(Chorus)
