Nobody else can see through you
How you really feel
Pursuing your fight against all the odds
No one else can reach, can you?

A shot in the dark
There's no coming back
I know I've got to risk it
From the bottom of my heart
I'm sure it will be
A shot in the dark

Impossible has a great hidden word
Undress your mind to change
Wake me up, if I ever fall asleep
Wake me up today, again

A shot in the dark
There's no coming back
I know I've got to risk it
From the bottom of my heart
I'm sure it will be
A shot in the dark

A shot in the dark
There's no coming back

A shot in the dark
There's no coming back
I know I've got to risk it
From the bottom of my heart
I'm sure it will be
A shot in the dark
