I always knew you were out there somewhere  
I could feel you in my soul  
Your song inside of me everywhere I go  
In the rain I could hear your whisper  
In the storm I could hear your scream

I will be waiting  
Dreaming until you are here  
Until you are here  
I am undone  
Until you are here

Every star in the sky is shining  
All beauty bears your name  
Your voice is calling me all along the way  
I am filled with the deepest hunger  
I am filled with a burning thirst

I will be waiting  
Yearning until you are here  
Until you are here  
I am undone  
Until you are here

Here  
Here  
Here  
Here  
Here  
Here  
Here  
Here

Here

I am undone  
I am undone

I am undone  
I am undone

I am undone  
Until you are here

Until you are here  
Until you are here  
I am undone

And I will be here  
Yes, I will wait here  
Until you come

Until you are here  
Here  
Here

I always knew you were out there somewhere (here)  
I could feel you in my soul (here)  
I will be waiting (until you are here)  
Until you are here
